

DAILY SCRUM MEETINGS

FULL METTINGS

[11:40, 5/13/2021] Rumbi ❤️ ❤️ ❤️ : Hey guys

How is the progress with the sprint.

So far I have completed the Sprint Planning Meeting and I upload it on github as a pdf and put up the user stories on Taiga today.

[11:46, 5/13/2021] Katlego Project: We're waiting on the design of the market place

[12:17, 5/13/2021] Rumbi ❤️ ❤️ ❤️ : I will try get started with that as soon as possible

[13:06, 5/14/2021] Rumbi ❤️ ❤️ ❤️ : Hey guys

There seems to be an issue with logging in. Am I the only one having that problem? Because I am thinking that something might be wrong with the server because it's also not logging in and I'm on campus.

[13:10, 5/14/2021] Rumbi ❤️ ❤️ ❤️ : Oh nvm, it's working now

[04:07, 5/15/2021] Rumbi ❤️ ❤️ ❤️ : So far I have created button images. Is it fine? What could I change or add to make it better?

[04:08, 5/15/2021] Katlego Project: I like them

[24:55, 5/16/2021] +27 79 826 0547: Nice 🔥 💯

[14:08, 5/16/2021] Rumbi ❤️ ❤️ ❤️ : Hey guys

I'm kinda struggling how to put our user stories into 5 user stories.

The user stories I have is finding products and services offered, categories of products, categories of services and updating balance. I am short of 1 more user story to add

[14:20, 5/16/2021] +27 84 893 0176: Did you put one for the profile

[14:21, 5/17/2021] +27 84 893 0176: I think if you can add that one that would be enough

[14:36, 5/17/2021] Rumbi ❤️ ❤️ ❤️: Oh yea, I thought the profile was not part of the user stories. I thought it was just for improving like Pierce said

[14:42, 5/17/2021] +27 84 893 0176: Since it was covered in the sprint I think it is a user story. I don't know what the other guys think

[17:27, 5/17/2021] Rumbi ❤️ ❤️ ❤️: Alright sure, it's understandable why it should be used as a user story

[09:43, 5/18/2021] Rumbi ❤️ ❤️ ❤️: Hey guys, is this fine?

[09:52, 5/18/2021] +27 73 880 8874: Looks good 🔥

[13:54, 5/18/2021] Rumbi ❤️ ❤️ ❤️: What could be the causes of a build failing?

[14:04, 5/18/2021] Katlego Project: If you have constraint view with no constraints can also affect the build.

[19:18, 5/18/2021] Rumbi ❤️ ❤️ ❤️: Thanks, I will try fix that and see if it make a difference

[08:17, 5/20/2021] Donovan: The last person.... I think there's an error in your code. I can't run it on my end

[08:17, 5/20/2021] Donovan: *to push

[08:21, 5/20/2021] Donovan: Ohh nvm... I fixed it

[08:48, 5/20/2021] Donovan: Guys how do I fix this?

[09:10, 5/20/2021] Donovan: Gotit

[21:16, 5/20/2021] Donovan: Hi matesif I sell something on the app....
Can the buyer send money to my account?

[21:16, 5/20/2021] Katlego Project: By paying for the product the
money should go to you.

[21:17, 5/20/2021] Donovan: Alright, Who's our database engineer?

[21:18, 5/20/2021] Donovan: Cool.... For now I'll work on the balance

[03:47, 5/21/2021] Rumbi ❤️ ❤️ ❤️: 🔥 🔥 🔥 🔥

[21:37, 5/21/2021] +27 73 880 8874: what other services does our app
provide?

[21:40, 5/21/2021] Katlego Project: Which ones have you included
already?

[21:41, 5/21/2021] +27 73 880 8874: don't naka the last one

[21:48, 5/21/2021] Katlego Project: Mentoring? Also?

[22:05, 5/21/2021] +27 73 880 8874: yeah I can add that

[12:58, 5/22/2021] Katlego Project: 🤔

[13:44, 5/22/2021] Rumbi ❤️ ❤️ ❤️: That's what we need for this
sprint 💔 otherwise we might lose a lot of marks

[17:58, 5/22/2021] +27 79 826 0547: Proper 100 🔥

[17:59, 5/22/2021] +27 79 826 0547: I added an issues on github ,but i
think we should email Rylan about it. Because Kat and I tried writing
tests which worked fine locally but the build failed on TravisCI

[18:01, 5/22/2021] Donovan: Hi guys, something came up and I had to leave. Can someone please take over from here and do the database. Please 🙏

[19:43, 5/22/2021] Donovan: *At home.

[19:43, 5/22/2021] Donovan: Is anyone gonna help?

[19:53, 5/22/2021] Rumbi ❤️ ❤️ ❤️: Eish, I have a lot of things to cover this weekend

[12:44, 5/23/2021] Rumbi ❤️ ❤️ ❤️: Hey guys

What is still left to do

[12:45, 5/23/2021] Donovan: Updating balance in the DB. I'm waiting for magape to help

[12:49, 5/23/2021] Rumbi ❤️ ❤️ ❤️: Alright that's good.

Can I please get some assistance for codecov. I don't know much on how to move forward with it

[13:51, 5/23/2021] +27 79 826 0547: What do you mean? You want the php?

[14:50, 5/23/2021] +27 79 826 0547: Hey guys just wanted to let you know i that i tried migrating our database from lamp to the new one created by Shaun. I did that successfully but it seems we can't access the server via https which is a problem so we might have to stick to lamp

[14:51, 5/23/2021] +27 79 826 0547: It refuses to connect, if one of you can figure it out. Let me know

[14:52, 5/23/2021] +27 79 826 0547: Let me clean up the profile page. Then I'll try to help as well. But we might have to email Rylan or message MJ to help

[14:53, 5/23/2021] +27 73 880 8874: we can stick with lamp and make sure we back-up everything we upload there

[15:03, 5/23/2021] +27 79 826 0547: Okay 

[15:04, 5/23/2021] Rumbi   : Yea I think that's best until we can figure out how to fix that problem

[17:14, 5/23/2021] Rumbi   : Guys there is 1 user story that is still not done, which is the profile

[17:15, 5/23/2021] +27 79 826 0547: I'm doing it now

[17:27, 5/23/2021] +27 79 826 0547: Do you mean the stuff Pierce said about changing the way profile looks and how to edit the fields?

[17:34, 5/23/2021] Rumbi   : Yes, and we also needed 1 more user story

[17:35, 5/23/2021] Katlego Project: Which is?

[17:36, 5/23/2021] Rumbi   : Which is that profile. It wasn't really meant to be a user story but because we were short of user stories, the profile is being made the 5th user story

[17:37, 5/23/2021] Katlego Project: I think that's what @Magape is doing rn

[17:41, 5/23/2021] +27 79 826 0547: I'm done with what I was doing, you guys can check

[19:31, 5/23/2021] Donovan: any idea why the last three line don't work? like the funds get deposited but it does not not toast and redirect me to homepage

[21:28, 5/23/2021] Donovan: I'm done with the balance. I'm about to push it

[21:31, 5/23/2021] +27 73 880 8874: proper
